

Balloon games and family trees at Lulworth House Residential Care Home

Our residents have loved playing balloon games in our lounge this week at Lulworth House Residential Care Home – batting a balloon to each other without it touching the floor. A good giggle and a great work out for the arms!

We've been making full use of our **garden** with the beautiful weather and our ladies and gents have enjoyed drinks and lunches outside, which is super to see.

We've also printed out some **family tree pictures** for our residents to fill in, which is such a nice activity as we get to chat about different family members and how they fit into the different generations.

Our residents have also been pleased to receive **letters and cards from loved ones**. These are always greeted with anticipation and it's wonderful to see the joy they bring to our **Home**.
