

Building lego flowers at Lulworth House Residential Care Home

Here are some photos from our lego flower making session at Lulworth House Residential Care Home, which was great fun!

Our lovely **Maggie** really enjoyed **choosing all the pieces** and was able to spot them quickly, creating some beautiful roses and daffodils. Our residents have loved admiring them in the vase and were shocked when we told them they are made from lego, as they **look so realistic!**

As part of the fun we recreated the romantic rose pose where Maggie held a flower in her teeth – good preparation for Valentine's Day! Ha!
