

Creative painting with straws at Lulworth House Residential Care Home

This week our residents at Lulworth House Residential Care Home got creative with painting with cut up straws.

We used the end of the straw to create **leaves for trees**, as we feel the weather change and autumn start to creep in! We also made a **pretty love hearts** using the same technique.

It was a great way to use up some straws we had leftover from a recent party!

We are really pleased with our finished colourful designs.
