

Firework art at Lulworth House Residential Care Home

On Wednesday 6 September our residents had fun creating firework art in celebration of Brazilian Independence Day here at Lulworth House Residential Care Home.

We talked a little and learnt about this day, including what they do in Brazil to celebrate it; the day is marked with military parades and patriotic performances during the day and fireworks at night in major cities.

This was such a fun and different activity to do. We used the **cardboard insides of toilet rolls** and cut the end of them, to dip in different colours of paint and made **firework shaped prints**. We added glitter to make it more fun and sparkle.

Our creativity worked well and we produced some stunning paintings that we're very proud of!
