

Flower art at Lulworth House Residential Care Home

We were very impressed by the amazing flower art produced by our residents in our weekly art club this week at Lulworth House Residential Care Home.

During the session, we focused on **painting tulips using forks and cotton buds**. Some residents enjoyed experimenting with the technique, while others preferred to use a more traditional approach with **paint brushes**.

We explored abstract art, as well as a more realistic perspective.

The results are much better than all our residents expected and the **lovely colours** from the paintings brightens up everyone's day.
Great work!
