

Lulworth House Residential Care Home residents get busy in the garden

On Saturday 9 May our residents enjoyed getting out in our garden to do some weeding, tending and planting new flowers here at Lulworth House Residential Care Home.

When they had finished, they **relaxed together** on our swing, enjoying the fresh air and the sounds of the birds which was very calming.

We also had our weekly **church service and group chat**, which are a good way to come together and keep our spirits up during lockdown.
