

## Lulworth House Residential Care Home welcomes impressive tortoise collection

**Diana moved to Lulworth House Residential Care Home a couple of months ago and recently her son brought over her precious tortoises, collected over the years.**

Her **tortoise models** come in all shapes and sizes. Wooden, glass, china, shell, silver; handmade, bought, gifted - the list goes on!

Everyone was so impressed as they **admired the huge collection** and Diana was moved by all the attention and enthusiasm everyone showed, happy to display all her tortoises in her bedroom and reminisce about each and every one and the stories behind them.
