

Making floral arrangements at Lulworth House Residential Care Home

This week at Lulworth House Residential Care Home we dove into some flower arranging.

We were donated a centre piece from a wedding from one of our residents' relatives. This was dismantled so we could put together our own displays.

We have two keen florists among our residents and they were in their element creating some beautiful displays to decorate the lounge with. This was a creative activity but everyone agreed it felt very therapeutic too.

We look forward our next creative session!
