

## Making mocktails and ice cream at Lulworth House Residential Care Home

**As we had such lovely warm weather last week at Lulworth House Residential Care Home, we enjoyed mocktails and ice cream making!**

Our residents had a great time mixing the **ice, fizzy juices and fruit juices for our mocktails**; the favourite ended up being orange juice, orange fizzy and orange slices, with lemonade and iced fruit tea coming a close second! One day we also added some fruit to our cups to make them look even more professional!

Our **raspberry ice cream** ended up being a great addition to our lunch dessert menu with some sliced strawberries - we made some using our nourish milkshakes which have been popular, especially in this heat.

*We have been enjoying lunch outside, so the ice cream was definitely appreciated!*
