

## Nursery children bring games and sensory fun to Lulworth House Residential Care Home

**We welcomed a group of local nursery children to Lulworth House Residential Care Home this week, which our residents always enjoy.**

We used a range of sensory objects for our residents to use to connect with the youngsters including a large soft toy, multicoloured fibres, decorations and stationery accessories which were colourful, tactile and fun! They were put to good use in a rhyming game which they all really enjoyed.

To keep us all fit, we also played table tennis and '*volley balloon*' which are both always a winner with both residents and children.

A really fun session and we look forward to hosting the children again soon.
