

Pet love at Lulworth House Residential Care Home

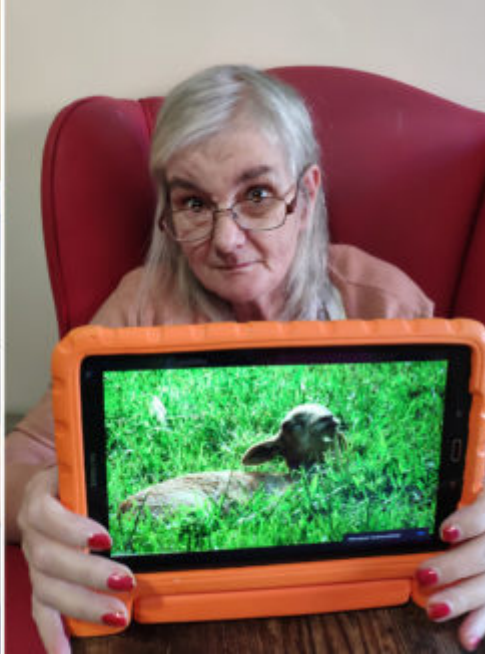

Last week, our residents at Lulworth House Residential Care Home came together for a wonderful sensory session called 'For the love of Pets'.

Everybody was given a lovely **cuddly toy** to hold and stroke, while we played a video of baby animals.

Our ladies and gents then shared **memories of their past pets** and engaged in brushing and petting the toys.

During our afternoon tea we also listened to the **sound of birds**.

It was such a relaxing afternoon and so touching to hear what joy pets had brought into our residents' lives.

Pets and animals bring so much happiness
