

Lulworth House Residential Care Home residents enjoy cinema popcorn and a pub outing

Home cinema

We used our new popcorn machine at Lulworth House Residential Care Home this week and set up our sensory home cinema in the conservatory.

Our residents enjoyed the classic Hollywood movie, 'Singing in the Rain' and sang and clapped along with the songs and best bits. They especially enjoyed the fresh toffee popcorn straight from the machine and fizzy drinks to add to the sensory experience of cinema, especially with the smell of the popcorn around the room!

We have started the colder season in a very cosy way!

Pub and board games outing

Last week, we took a trip to The Pippin, our local pub restaurant. We found some board games there and enjoyed a Best of British quiz game as we sipped drinks.

One of our newer residents enjoyed a red martini, a favourite tippie of hers and really enjoyed getting out into the community and it was a great way for her to get to know some of the other residents.
