

Sensory bubble walls gifted to Lulworth House Residential Care Home

We are thrilled to have received a very generous donation here at Lulworth House Residential Care Home – two large sensory bubble walls.

This amazing gift was donated by our late resident's family, **the Chambers**.

We are so very grateful for this incredibly generous gift which our residents love; we have put them in each lounge for everybody to enjoy. They are so **soothing and relaxing** to watch.

Huge thank you to the Chambers family for such a thoughtful gift to our Home.

We are blown away by the generous donations we continue to receive from our families. We have been gifted **DVD players, chocolates, books** and **all kinds of generous presents** for both our residents and staff this festive season.

We cannot thank our families enough for each and every kind donation.
