

Tempting cheesecake and helping hands at Lulworth House Residential Care Home

On Tuesday 9 May, our resident Marie and Katja our Nourishment and Social Wellness Coordinator made a chocolate cheesecake cake together, with a chocolate cake base instead of a biscuit crumb base.

The cake was topped with chocolate cake crumbs and broken Easter eggs (...we still have a few around!), making it even more tempting. It will be served as a dessert at lunch today – *delicious!*

Helping hands

Our helping hands are at it again!

We have had a lovely lot of helping hands in our dining room recently. From **cleaning tables** and **sweeping** to **napkin folding** and **laying the tables** – *thank you to our kind resident for offering their help.*
