

World Gratitude Day creativity at Lulworth House Residential Care Home

To celebrate 'World Gratitude Day' on Wednesday 21 September here at Lulworth House Residential Care Home, we decided to create a gratitude solar system.

First we held a discussion about **what we are most grateful for**. Each of our residents then picked their **preferred word or statement and wrote it on a wooden planet or star**, decorating them with colours of their choice.

They were all really proud of the final result!
